WESTERN PENNA.  
NUMISMATIC  
SOCIETY

ACCESSION BOOK

Western Pennsylvania Numismatic Society  
Accession Book

Method of Recording Library Operations

1. The publication received is recorded in the Accession Book, full data being recorded in the appropriate section, viz., Books, Pamphlets, Periodicals, Catalogues, Miscellaneous. Following the initial entries herein, records are to be made in order of receipt.
2. At time of entry in Accession Book, a CATALOGUE NUMBER is assigned the publication, these numbers being consecutive in order of receipt, and prefaced by a letter indicating the section in which entered. Each entry will thus be prefaced by V (for volume or book), B (for brochure or pamphlet), P (for periodical), C (for catalogue), or M (for miscellaneous). In each case, the number is followed by the first two letters of the author's last name, except periodicals, and catalogues, with which treat owner or dealer as author.
3. Entering periodicals:- These are entered only as complete volumes (otherwise as pamphlets). The number is preceded by P, followed by initials of the periodical's title, and the number is the volume number NOT the consecutive receipt number. Thus, Volume VI of the American Journal of Numismatics is numbered P21 AJN, while Volume 21 of The Numismatist is numbered P21 N.
4. Classification:- BOOKS includes bound volumes devoted to numismatic subjects. PAMPHLETS includes unbound papers, monographs, brochures, etc., loose single copies of periodicals, etc. PERIODICALS includes, of course, only those dealing with numismatic subjects. CATALOGUES are those fixed price-lists, issued by dealers, of sufficient scope to have lasting value; and auction catalogues which have price-lists or plates. Backing either prices or illustration, the collection must be complete or well-catalogued to warrant entry. Miscellaneous includes non-numismatic & all other publications otherwise unclassified.
5. Immediately upon entry in Accession Book, the publication, if bound, is marked with Society's BOOKPLATE, on which is its catalogue number; if unbound, it is marked with a rubber-stamp and catalogue number. In either event, all plates, etc., should be marked to prevent removal.
6. CARD INDEXING. After the publication is marked, it is filed as follows (a) a card bearing the title (b) a card bearing the author's name; (c) additional cards listing the subject-matter. Card a carries the title at top, catalogue number at top-right, author's name next below, then a brief note on the contents. Card b carries the author's name at top, followed by the various works with catalogue numbers. While this may carry through many cards, it is unnecessary to make separate author's cards for two books by the same writer. Cards c attempt to break subject-matter down into numismatic, geographical & other groups. Thus "The Coins and Tokens of Canada" by P.N. Breton would carry a title card, an author's card, a card headed TOKENS, and a card headed CANADA (none is needed for coins, as such words as begin a title or are almost synonymous with the general subject. All cards are filed in alphabetical order.
7. Periodicals are listed under the name of the periodical, volume by volume. Leading articles where feasible should receive title, author, & subject cards.
8. The contents of the Society's Library should be accessible for loan to members, upon specified rules, listed over:-

9. Suggested Library Rules: - (A) Books to be loaned - on call to Curator - for a period of one month, or from regular meeting to regular meeting. (B) The member to be absolutely responsible for proper care and prompt return of book. (C) The member to sign or initial a receipt at time of borrowing. (D) Books not to be loaned to non-members, except upon motion of the Society, duly passed. (E) Certain penalties to be prescribed for intentional or wilful violation of Rules. (F) Certain books for reference only at meetings.
10. From time to time there should be issued to the membership mimeographed or printed library lists, which will, each in turn, bring the list of material accessions to date. Sufficient of these should be prepared to furnish future new members with copies on their election.
11. These library lists should, at some point, include a supplemental list of numismatic works in the Carnegie Library of Pittsburgh.
